

## Chesapeake Fish Passage Prioritization - Dam Fact Sheet

CFPPP Unique ID: **VA\_1109**

**LURAY**

|                           |                                |
|---------------------------|--------------------------------|
| Bay-wide Diadromous Tier  | 11                             |
| Bay-wide Resident Tier    | 7                              |
| Bay-wide Brook Trout Tier | N/A                            |
| NID ID                    | VA13905                        |
| State ID                  | 1109                           |
| River Name                | South Fork Shenandoah River    |
| Dam Height (ft)           | 21.9                           |
| Dam Type                  | Buttress                       |
| Latitude                  | 38.6773                        |
| Longitude                 | -78.4997                       |
| Passage Facilities        | None Documented                |
| Passage Year              | N/A                            |
| Size Class                | 3b: Medium Mainstem River (1,  |
| HUC 12                    | Mill Creek-South Fork Shenando |
| HUC 10                    | Hawksbill Creek-South Fork She |
| HUC 8                     | South Fork Shenandoah          |
| HUC 6                     | Potomac                        |
| HUC 4                     | Potomac                        |

### Landcover

| NLCD (2011)                                       |       | Chesapeake Conservancy (2016)                   |       |
|---------------------------------------------------|-------|-------------------------------------------------|-------|
| % Impervious Surface in Upstream Drainage Area    | 2.73  | % Tree Cover in ARA of Upstream Network         | 49.63 |
| % Natural Cover in Upstream Drainage Area         | 53.82 | % Tree Cover in ARA of Downstream Network       | 44.26 |
| % Forested in Upstream Drainage Area              | 53.09 | % Herbaceous Cover in ARA of Upstream Network   | 35.81 |
| % Agriculture in Upstream Drainage Area           | 34.83 | % Herbaceous Cover in ARA of Downstream Network | 44.57 |
| % Natural Cover in ARA of Upstream Network        | 51.78 | % Barren Cover in ARA of Upstream Network       | 0.02  |
| % Natural Cover in ARA of Downstream Network      | 40.93 | % Barren Cover in ARA of Downstream Network     | 0     |
| % Forest Cover in ARA of Upstream Network         | 40.8  | % Road Impervious in ARA of Upstream Network    | 2.36  |
| % Forest Cover in ARA of Downstream Network       | 33.95 | % Road Impervious in ARA of Downstream Network  | 2.35  |
| % Agricultural Cover in ARA of Upstream Network   | 36.98 | % Other Impervious in ARA of Upstream Network   | 3.47  |
| % Agricultural Cover in ARA of Downstream Network | 43.16 | % Other Impervious in ARA of Downstream Network | 3     |
| % Impervious Surf in ARA of Upstream Network      | 1.83  |                                                 |       |
| % Impervious Surf in ARA of Downstream Network    | 2.74  |                                                 |       |

**LURAY**

### Network, System Type and Condition

|                                                                    |          |                                |   |
|--------------------------------------------------------------------|----------|--------------------------------|---|
| Functional Upstream Network (mi)                                   | 195.37   | Upstream Size Class Gain (#)   | 0 |
| Total Functional Network (mi)                                      | 421.7    | # Downstream Natural Barriers  | 2 |
| Absolute Gain (mi)                                                 | 195.37   | # Downstream Hydropower Dams   | 2 |
| # Size Classes in Total Network                                    | 4        | # Downstream Dams with Passage | 3 |
| # Upstream Network Size Classes                                    | 3        | # of Downstream Barriers       | 5 |
| NFHAP Cumulative Disturbance Index                                 | Moderate |                                |   |
| Dam is on Conserved Land                                           | No       |                                |   |
| % Conserved Land in 100m Buffer of Upstream Network                | 11.15    |                                |   |
| % Conserved Land in 100m Buffer of Downstream Network              | 22.72    |                                |   |
| Density of Crossings in Upstream Network Watershed (#/m2)          | 1.65     |                                |   |
| Density of Crossings in Downstream Network Watershed (#/m2)        | 1.28     |                                |   |
| Density of off-channel dams in Upstream Network Watershed (#/m2)   | 0        |                                |   |
| Density of off-channel dams in Downstream Network Watershed (#/m2) | 0        |                                |   |

### Diadromous Fish

|                                                     |                 |                               |                 |
|-----------------------------------------------------|-----------------|-------------------------------|-----------------|
| Downstream Alewife                                  | None Documented | Downstream Striped Bass       | None Documented |
| Downstream Blueback                                 | None Documented | Downstream Atlantic Sturgeon  | None Documented |
| Downstream American Shad                            | None Documented | Downstream Shortnose Sturgeon | None Documented |
| Downstream Hickory Shad                             | None Documented | Downstream American Eel       | Current         |
| Presence of 1 or More Downstream Anadromous Species | None Documented |                               |                 |
| # Diadromous Species Downstream (incl eel)          | 1               |                               |                 |

### Resident Fish

|                                                  |    |
|--------------------------------------------------|----|
| Barrier is in EBTJV BKT Catchment                | No |
| Barrier is in Modeled BKT Catchment (DeWeber)    | No |
| Barrier Blocks an EBTJV Catchment                | No |
| Barrier Blocks a Modeled BKT Catchment (DeWeber) | No |
| Native Fish Species Richness (HUC8)              | 35 |
| # Rare Fish (HUC8)                               | 0  |
| # Rare Mussel (HUC8)                             | 0  |
| # Rare Crayfish (HUC8)                           | 0  |

### Stream Health
